Shri Mataji Nirmala Devi advices

New Moon & Full Moon nights

First thing to note is that on the night of new-moon and full-moon, always there are dangers on your left and right sides. Specially on these two days, that is, the nights of new moon and full moon, you should sleep early. After your meals, bow before the photograph, meditate, and putting attention in Sahasrara, sleep after getting into the bandhan. That means you go into the unconscious the very moment your attention goes to Sahasrara. There, do yourself the bandhan and you are saved. During these two nights particularly. The night of new moon, you should meditate on Shri Shiva. You should sleep after meditating on Shri Shiva- that is the Spirit and surrender yourself to Him. On the night of full moon, you should meditate on Shri Rama and surrender yourself to Him for protection. The meaning of the word Ramachandra is creativity. You should completely dedicate your creative powers to Him. Thus you have to take special care of yourself on these two days.

You'll get my blessings during 7th day of Moon.

8th - 9th New Moon & Full Moon days are the days of Shri Durga you should read "Devi Mahatmayam".

14th Moon day - Adi Shakti day, read 1000 names of Shri Lalita
