

Love America Tour Overview

Sahaja Yogis from all over the world are coming to America in August to join us on a national tour called “Love America”!

What is the Love America Tour? – Vision and Mission

In the three auspicious weeks before Shri Krishna Puja, more than 100 yogis from outside the U.S. are putting their desire into action to express their love for America. It's our privilege to welcome them and to work with this international team to spread Shri Mataji's love across the country this summer.

The tour has two goals:

- a. To give Sahaja Yoga Meditation programs for organizations, in workplace settings, and for other types of community groups. Music and meditation programs can also be offered.
- b. To form lasting bonds of friendship and sharing of ideas between visiting international yogis and local U.S. yogis.

The mission of the Love America Tour is that we can all come together from many different cultures and countries to deliver real change through Kundalini awakening. Where most self-improvement practices look at the head, we as Yogis are focused on the heart. We are going to flood America with love, compassion, understanding and empathy. In what seems to be a world of increasing chaos and falsehood, Sahaja Yoga brings serenity and truth.

Tour Details

There will be five regional tours happening at the same time. The tour will combine the knowledge of local collectives with the enthusiasm of visiting international yogis.

The Love America Tour will take place from August 8 to 29, 2018. The five regions are: Northwest, Southwest, Midwest, Northeast, and Southeast. All across the country, local collectives are working with teams of international yogis to decide on tour routes and activities. Within each of the five geographic regions, the tour will spend a full week in three different locations.

Preparation for the Tour

Promotional materials and online tools are being prepared by a team of international and U.S. yogis.

For anyone who would like to contribute towards the fundraising effort we have a tax-deductible platform to accept donations via:

<https://www.americatour.info/participate/donate>

A breakdown of the tour costs can be found on this website.

To be a part of this exciting tour, including hosting and transportation, contact **info@love-america.us**

Let's make this tour a great success!

Jai Shri Mataji !!!

"...I have to say that America is a great country in the universe. It has the place of the Vishuddhi Chakra, which is the center of responsibility and discretion. And they have been so responsible so far. They have given such noble ideas of democracy and of freedom and all those things which are really all belonging to God's ideas. And when they talk of all these things, we must know that there is something much more that they can give to the whole world.

"...And that is why people talked long time back in this country about freedom. They helped all the countries to get their freedom, and now it is their job to get them their own freedom within themselves so that others will also follow."

Shri Mataji Nirmala Devi, Kazu Radio Interview. Santa Cruz, California, October 1, 1983
